Omega pull through - insulator

EI-BTL2

The pull through hook (ES-HK/EP/PTH) in used in conjunction with the round tension bobbin insulator large plus (EI-BTL2) to guide the electric fence wire around the corner and holds it in place.

Features:
- Reduces instaltion time
- Doulbe shield with large tracking distance
- Heavy duty durable design to be used on corners on Omega brackets

Specifications:

UV stabilised HDPE
Maximum operating force: 25kg
Operating temperature: -40 to 80 Celsius
Operating voltage: 0- 12KV
Recycling: SPI resin code 2
