Stranded 2mm aluminium wire agri

AW-AL20/500/STR

Nemtek aluminium wire has the lowest resistance allowing long fences to be powered up, reducing the number of energizers needed. The flexibility offered by the stranded aluminium wire construction makes working with this wire easier during installation and results in a neat clean look on the fence without compromising the fences performance.

Features:
- Low electrical resistance allows for longer fences to be powered by an energizer
- Good corrosion resistance for most environments (+.5 km from coastline)
- Easy to work with stranded wires

Specifications:

Material: Aluminium alloy
Construction: Stranded 2mm
