

Poly rope 6mm Mix6 White

AW-PRBMIX6/200M

Poly ropes are used for their higher visibility and superior strength for animal electric fencing. The poly rope contains highly conductive wires allowing the energizer to power a much longer fence reducing the need for additional energizers.

Features:

- Durable design with a reinforced structure increases the lifespan of the electric fence wire
- The electric fence rope is easier to collect when the system needs to be portable and movable
- For medium to large size fences
- Bright blue and white are high visibility colour for animals
- Low resistance mixed metal wires including stainless steel and high performance wires

Specifications:

Construction: 6mm wide rope

Conductors: 4 x 0.25mm stainless steel and 2 x 0.25 mm high conductive strands

Material: UV stabilised

Resistance: 190Ohms/km

Strength: 410kg (±10%)
