Poly tape 12mm Mix5

Poly tapes 12mm are used for their higher visibility and superior strength for animal electric fencing. The poly tape contains highly conductive wires allowing the energizer to power a much longer fence reducing the need for additional energizers.

Features:
• Durable design with a reinforced structure increases the lifespan of the electric fence wire
• The electric fence wire is easier to collect when the system needs to be portable and movable
• For small size fences
• Bright blue high visibility colour for animals
• Low resistance mixed metal wires, including stainless steel and high performance wires
• Thick plastic mono-filaments on the edges to increase the life and reduce wear

Specifications:

Construction: 12mm wide tape
Conductors: 3 x 0.25mm stainless steel and 2 x 0.25 mm high conductive strands
Material: UV stabilised
Resistance: 180Ohms/km
Construction: 20mm wide tape
Strength: 112kg (±10%)
