Poly tape 40mm Mix10

AW-PTMX40MM/200

Poly tapes 40mm are used for their higher visibility and superior strength for animal electric fencing. The poly tape contains highly conductive wires allowing the energizer to power a much longer fence reducing the need for additional energizers.

Features:
• Durable design with a reinforced structure increases the lifespan of the electric fence wire
• The electric fence wire is easier to collect when the system needs to be portable and movable
• For medium size fences
• Bright blue and white are high visibility colour for animals
• Low resistance mixed metal wires including stainless steel and high performance wires
• Thick plastic mono-filaments on the edges to increase the life and reduce wear

Specifications:

Construction: 40mm wide tape
Conductors: 8 x 0.25mm stainless steel and 2 x 0.25 mm high conductive strands
Material: UV stabilised
Resistance: 160Ohms/km
Strength: 190kg (±10%)
